English

Adult rehabilitation centers provide an in-residence rehabilitation program with a focus on basic necessities. Each program participant receives a clean and healthy living environment, good food, work therapy, leisure time activities, group and individual counseling, spiritual direction and the resources needed to develop life skills and a personal relationship with God.

Each center offers residential housing, work, and group and individual therapy, all in a clean, wholesome environment. The physical and spiritual care that program participants receive prepares them to re-enter society and return to gainful employment. Many of those who have been rehabilitated are reunited with their families and resume a normal life.
