The Winchester Medical Center Auxiliary offers Animal Assisted Therapy Services (AAT). Handlers and dogs complete intensive training, plus pass a rigorous annual certification exam. AAT teams work regularly with patients in clinical settings, including Rehabilitation, Pediatrics, Oncology, and Behavioral Health, and are on call for visits to other units.

If you are interested in learning more about the program, contact Volunteer Services at 540.536.8156.

The Auxiliary serves as an extension of Winchester Medical Center in the promotion and improvement of general health of the community through education, service and goodwill. Call 540.678.8023 for information about the Auxiliary.
