Northern Virginia Dental Clinic only accepts adults aged 18 and older through a network of referring social agencies. Eligibility is based on where the individual lives and household income. A list of referring agencies can be found on the website.

The goal is to determine the current state of oral health of each individual referred to the clinic, develop a detailed treatment plan, and return each individual to an infection-free and functional state of oral health. Volunteer dentists, dental hygienists, and auxiliaries provide health care services for the indigent population of Northern Virginia.

For Loudoun County residents, call Social Services to determine eligibility at 571.258.3116. Once you have been determined eligible, you will be put on a waiting list. When your name comes to the top, the Dental clinic will call you to make an appointment. Eligibility will last for one year. If treatment is not finished by that time, you will have to qualify again.
