The Danville-Pittsylvania Community Services Oral Healthcare Access Program, in collaboration with the United Way of Danville Pittsylvania County and Danville Regional Dental Society, provides funding for some high need, low income adults with behavioral health disorders to receive care for untreated oral disease. Case managers coordinate dental services for individuals identified as without resources to pay for oral healthcare. This grant program ensures dentists receive reimbursement for services, ensures appointments are kept, reduces transportation barriers to appointments and reduces use of the hospital emergency department for dental care.
