VISION USA is a national, non-profit charity developed and managed by the American Optometric Association and its affiliated state associations. Its mission is

to coordinate the provision of no cost eye health and vision exams to individuals whose financial circumstances limit their access to such care. Vision USA also strives to educate the public about the need and value of personal and professional eye care.

If you need an eye exam and do not have insurance and cannot afford one, work with your social worker, case worker, charitable organization or agency to submit an application on your behalf for VISION USA services

Doctors donate their services and services may be limited in some areas. Call for a local affiliate.
