Waverly Medical Center is a satellite community health center in Waverly that offers adult/pediatric care for acute and chronic conditions, lab and diagnostic services, well-child checks, minor emergency care, pharmacy assistance, and health education.

Community Health Centers (CHCs) are nonprofit organizations located in medically under-served areas (MUAs), providing comprehensive primary health care to anyone seeking care. In addition to treating individual patients, a health center emphasizes health promotion and disease prevention for entire communities. A Community Health Center does not deny anyone primary health care services - all community residents have equal access regardless of ability to pay, geographic location, culture, age, sex, or religion.

Service Area(s)

Sussex County
