English

Virginia Coast Chorus is an organization which teaches women the original folk-art of 4-part barbershop harmony. Barbershop music, with its ringing chords, is a uniquely American art form. It is sung unaccompanied with four voice parts - Tenor, Lead, Baritone, Bass - this wide range of voice parts offers women with high and low voices a comfortable part to sing.

A membership organization of female singers age 18 to 80 who meet regularly to practice, perform, socialize and have fun.

Sweet Adelines International is a worldwide organization of women singers committed to advancing the art form of barbershop through education and performance.
