The Cystic Fibrosis (CF) Foundation produces a variety of publications and videos designed to inform and educate those in the CF community about important topics relating to science investments and discoveries, as well as medical treatment and progress.

A primary goal of all our publications is to broaden awareness for CF and to encourage more people to support our mission to help develop new treatments and advance the search for a cure for this disease. [Connections](#) is the Foundation's bi-monthly e-newsletter and the videos made by the Foundation may be viewed on the YouTube channel, [CysticFibrosisUSA](#).

On the CF's website, there is also a comprehensive list of [frequently asked questions](#) (FAQ), e.g., what is cystic fibrosis, who gets it, can it be cured, how is it diagnosed, etc.

Bus Line: Metrobus. Subway Stop: Bethesda.
