English

National Association for Home Care (NAHC) is the largest professional association representing the interests of Americans who need home care (including acute, long-term, and terminal care) and the caregivers that provide them with in-home health and supportive services.

NAHC advocates for better regulations for home care organizations, hospices providers, home care aide providers and professionals offering home care.

Call for latest trends and developments affecting home care and hospice.
Membership has extra benefits.

Website has a Home Care or Hospice agency locator.
