SPecially Adapted Resource Clubs (SPARC) is an innovative clubhouse model supporting young adults with life-long physical and/or developmental disabilities. SPARC supports club members as they continue life-skills development with an

added component of entrepreneurial projects and enrichment activities such as music and art therapies.

Life-skill development is accomplished through the guided activities presented by staff. Vocational skill development is accomplished through dynamic entrepreneurial projects. SPARC participants learn what it is like to operate a small business in direct support of their club. We currently produce note cards and calendars showcasing our own artwork and photography.
