Senior Fall Prevention and Kingstowne Pilates offers balance and mobility training.

FallProof!™ Balance & Mobility Classes are a group-based balance and mobility program developed by Dr. Debra Rose at California State University, Fullerton, Center for Successful Aging. FallProof!™ classes are taught by certified instructors who undergo rigorous training, and are required to complete ongoing certification requirements. FallProof!™ includes pre and post-assessments to determine an individual's fall risk prior to taking the class and one's level of improvement after taking the class.

Pat Karlsson Backe is a certified Group Exercise Instructor and Personal Trainer with over twenty years of experience, as well as a FallProof!™ Certified Master Instructor. Prevention Workshops address the multiple risk factors that contribute to fall risk and lead to fall prevention. The Balance & Mobility workshops are geared to the demographics of a particular population and may include one or multiple topics such as fall risk screening, fear of falling, strength, balance, and mobility training, bone health education, and home safety assessment.
