At Chesterfield County Department of Mental Health Support Services (CCMHSS), the Best Choice Day Support program is a center-based program located in the community for adults aged 18 or older with a primary diagnosis of developmental disability. Program participants must be willing to participate in developing and implementing their individual service plan. The day support program has two sites.

The Day Support Program provides training and supports to individuals with developmental disabilities and promotes activities that are leisure oriented, community based and that enhance individual skill development. The program engages individuals in recreational activities focused on socialization, music and art therapy, simple cooking instruction, sensory stimulation, personal care instruction and volunteer opportunities. The program has volunteer agreements with organizations such as Meals on Wheels and Thrifty Quaker where consumers can gain work experience.
