Alpha Counselors Services offers Therapeutic Day Treatment. This program provides education coupled with mental health services in a therapeutic environment. This service is for children with mental, emotional and behavioral problems which put them at risk of not being able to function in a traditional school setting.

Through this intervention, youth can be diverted before more intensive services, such as hospitalization, are needed. School and parents are vital partners throughout treatment.

The children's program includes ages 5 through 12 and the adolescent program includes ages 13 through 18 years.
