The TANF program provides eligible families with a monthly cash payment to meet their basic needs. Participants may be provided with services such as job skills training, work experience, job readiness training, child care assistance, transportation, and other work related expenses. An eligible child to be eligible must be under the age of 18, or if 18, will graduate from high school before age 19, going to school regularly if between the ages of five and 18, living with a parent or other relative, and a U.S. citizen or an eligible immigrant.

The TANF program initiative has time to limited benefits, a strong work requirement, and a social contract that sets out the responsibilities of and expectations for recipients of public assistance and the government.
