Since 1940, Beltone has been dedicated to helping you enjoy a more rewarding life through better hearing.

A licensed Hearing Instrument Specialist will guide you through a free personalized hearing health assessment which includes a complete case history, a video otoscope inspection and hearing test. Hearing aids, if needed, will be prescribed based on

your assessment. Using simulated everyday sounds, you will be able to "test drive" hearing aids before you buy them.

We provide personal counseling and follow-up care to help you adjust to your hearing aids, and free cleanings and adjustments for as long as you own your Beltone hearing instruments at any Beltone Center nationwide. We can also service all makes and models of hearing aids.

We accept many insurance plans including Anthem Blue Cross Blue Shield and Federal Employees Blue Cross Blue Shield. Financing available on all hearing aids. With over 60 locations in Virginia please visit [the website](#) to locate your closest Beltone.
