Medicaid

Resources for Independence of Virginia provides in-home support services for individuals with developmental disabilities.

In-Home Supports or Personal Supports are available for adults living in their own home or family's home who need assistance in activities of daily living such as eating, bathing, dressing and meal preparation. Each individual receives a specific number of hours per week according to their needs. Supports can also include leisure and community integration as well as the creation of safety nets to ensure the person can remain safely in their home for as long as possible.
