Grayson County Sheriff's office participates in SALT (Seniors and Law Enforcement Together). SALT is TRIAD on the community level. The SALT Council determines the needs of the community's senior population as they relate to crime prevention and safety awareness and coordinates activities to meet those needs. Working together the council finds ways to provide information and self-defense strategies for Grayson County's aging population.

Meetings are held on the 3rd Friday (alternates) of each month. Call for more information.
