The Tri-Area Community Health Center at Ferrum was established in the lower level of Vaughan Chapel on the campus of Ferrum College to provide quality affordable health care for the community as well as students and faculty who attend the college.

Their physicians are board-certified in Family Medicine and are qualified to manage most medical problems that might arise, both acute and chronic, in all ages of patients. This care extends from pediatrics to adults and geriatric patients and includes minor surgeries, x-ray capabilities, routine laboratory testing, and family planning.

They offer complete pediatric care from infancy through adolescent years for immunizations, routine well-child examinations, and sick visits. Their practitioners and skilled nurses also provide student health care and women's health services, including annual exams, PAP smears, pregnancy testing, and birth control counseling.

The on-site pharmacy provides a convenient resource for filling your prescriptions or

purchasing over-the-counter medications.
