Commonwealth Autism Service offers a variety of services for individuals with autism and other developmental disabilities.

We carry out our mission through three main pathways:

- Providing best-practice expertise to families and providers through our *Education, Training, & Support* programs. This includes our Annual Conference and our [Virtual Learning Institute](#).
- Providing direct service programs that represent best practices across the lifespan through our *Innovate, Operate, & Model* programs. This includes our programs at The Founders Center
- Supporting the community through information, awareness, and advocacy. This includes participation in and sharing of community events, our Resource Directory, support of Autism Action Groups, and involvement in governmental and legislative endeavors.
