HomeWell Senior Care offers companion care services and care management services. Companion care includes help with basic tasks such as meal planning and preparation and cleanup, light housekeeping, laundry, errand service, assistance with pets, medication reminders, and daily check-ins.

Care management services focus on the overall care of individuals. Managers help to identify the needs (mental, physical, emotional, spiritual, legal, and financial) through a comprehensive assessment process. Managers then recommend positive solutions and, if desired, coordinate and implement the services.
