Money Management International (MMI) is a non profit organization dedicated to helping consumers identify and resolve their financial problems.

The Money Management Program: Our certified professional counselors understand the needs of our clients and the requirements of creditors. Counselors evaluate the client's financial situation and utilize available income to structure a debt repayment program within the client's capabilities. A budget is devised to meet living expenses and bill payments. Clients are directed toward financial responsibility and control of their finances. Our agency will set up a repayment plan for the orderly payment of existing debt with the cooperation of creditors. Clients agree not to incur further debt while on the plan. It is our mission to provide unbiased advice and support as our clients make financial decisions for a more stable future.

MMI offers solutions and tools to help you achieve your financial goals. Professional financial guidance, credit counseling, debt management solutions, housing counseling assistance including Reverse Mortgage counseling, bankruptcy counseling and education services, and educational programs are provided by phone, Internet, and in-person sessions.

MMI is approved by the US Department of Housing and Urban Development (HUD) to help you get back on track if you have fallen behind with your mortgage payments. Trained counselors are experts in foreclosure prevention and can discuss available options for curing your delinquent home loan and create an action plan for successful homeownership.
