English

Transportation is another important part of the ECHO advantage. Since our beginning, we have provided daily transportation to and from a program participant's residence and their worksite. This has allowed individuals with disabilities greater opportunities for employment and community involvement.

As ECHO programs and services have grown, so has our transportation system. We now have 37 vans and small buses, many of which are wheelchair accessible, that in total average 24,000 miles per month while transporting approximately 160 program participants to and from their homes and worksites.

ECHO is now a Logisticare provider which allows individuals funded by Medicaid Home and Communities-based waivers to use ECHO transportation. ECHO also

contracts with the Loudoun County Department of Family Services, coordinating VIEW transportation and providing on-demand transportation for their clientele.
