Liberty Point Behavioral Healthcare offers assessment and diagnostic program. Liberty Point's short term assessment and diagnostic program offers full scale evaluations for males, ages 13-22 years old. A battery of educational, psychological and psychosexual testing is available. The 8 bed unit is designed to meet the needs of each individual and offer recommendations for a full continuum of services and placement options.

Staff can provide progressive academic life skills and vocational skills training that will improve the resident's functioning and self-esteem, empowering them to find gainful employment and live within an independent setting.

Service Area(s)

Staunton City
