The City of Suffolk provides paratransit transportation. Paratransit service is a curb-to-curb, shared-ride public transportation service for people whose disability prevents them from riding fixed-route buses. The paratransit service is “demand response”, which means that riders must call and schedule a ride in advance of the service.

The [ADA Transportation Application](#) is also available on the website.

The ADA routes (Green, Orange, Red, Purple, Yellow, and Pink) may be viewed on the website.
