Insight provides a family-like environment where adults with intellectual and development disabilities live together in the community. It is a less structured living environment for those adults capable of living semi-independently. Two to three people live in townhouses or apartments. Each resident receives the degree of responsibility and supervision required to meet his or her individual needs. Instruction is provided in areas such as food preparation, housekeeping, medication administration, personal hygiene, and budgeting. The homes are located in the communities of Dale City, Dumfries, Manassas, and Woodbridge.
