RN the Know, LLC is a nurse consultant focused on Advance Care Planning education and assisting public complete advance directives. It is a small business born out of certainty that the average person is not knowledgeable on the fact that they are in dire need of advance care planning information they can understand. The importance of comprehending how the health care system works is compounded when beneficiaries of Medicare, or their family members, do not understand benefits. Needless suffering and hours of frustration can be spared if this information is learned in a stress-free setting, prior to any sudden crisis or emergency.
