The Early Prevention and Intervention for Children Program (EPIC) assists infants and toddlers with developmental delays and their parents. VersAbility's Service Coordinators assess a child's needs and coordinate tailored therapy programs to ensure each child reaches their full potential and is ready for school. The family-based approach provides parents and caregivers with support and training in developmental milestones, parenting skills and therapy techniques.

The staff works with families to develop an Individualized Family Service Plan (IFSP) based on the family's needs, preferences and concerns regarding their child and their family. Each child and family is assigned to a Service Coordinator at the time of the referral and intake.

Service Area(s)

Hampton City

,

Newport News City
