

Disability Podcasts Worth a Listen

It's no surprise why more and more people are listening to podcasts. Podcasts provide an easy way to connect with others, hear stories, and find information and resources.

Enabling Devices provides an overview of 10 podcasts focused on disability issues in the blog article **10 Podcasts Worth a Listen**. According to statistics compiled by [Podcast Insights.com](https://podcastinsights.com), as of 2019, 51 percent of people in the United States report they have listened to a podcast. Currently, Podcast Insights estimates there are 750,000 podcasts and 30 million episodes available on the internet. Still, some of us remain confused about what podcasts are and why many people prefer listening to podcasts to consuming other types of digital media.

Explore [10 Podcasts Worth a Listen](#) to read about some of the top-rated podcasts on topics that may be of interest to individuals in the disabilities community.
