ALS News Today is part of BioNews Services, which is a media platform designed to leverage digital news content as a means of reaching and connecting with rare disease populations that had little to no access to fresh, accurate, and authoritative information about their disease online. BioNews is committed to establishing and maintaining a strong connection between our content departments and our clients and advertisers. This is to ensure that our readers have access to news and information that is objective and accurate.

ALS News Today is strictly a news and information website about the disease. It does not provide medical advice, diagnosis, or treatment. This content is not intended to be a substitute for professional medical advice, diagnosis, or treatment. Never disregard professional medical advice or delay in seeking it because of

something you have read on this website.
