George Mason University's Mason and Partners (MAP) interprofessional clinics serve the uninsured, and underserved communities within Prince William and Fairfax counties in Northern Virginia. These bridge-care model-free clinics, located in Manassas and Culmore, provide health care, school physicals, screenings, and mental health services for vulnerable populations located in low-income and medically underserved areas (MUA). The ambulatory clinics provide the community referrals, resources, and case management for medical home placement; wellness and integrated care workshops; and group care for chronic disease management and education.

Services Not offered: pre-employment physicals, obstetrics care, medical care for complicated illnesses. Note: immunizations need to be obtained from the local Health Department.
